# FROM THE CHAIRMAN'S DESK

**Dear Shareholders,**

I am delighted to address you today as the Chairman of your Company and present to you the 39<sup>th</sup> Annual Report for the financial year 2022-23. I am thankful to you for your continued trust and confidence in your Company's capabilities in its continuous journey and growth.

In the last financial year, India has emerged as the most resilient and one of the fastest growing economies in the world despite significant challenges in the global environment – including continuing disruptions of supply chain following the rise in geopolitical tensions, the synchronized tightening of global monetary policies and inflationary pressures. India's economy bounced back after the pandemic in FY 2021-22 with the GDP growing 7.2% in FY 2022-23. The Government of India continues to strengthen key sectors of the Indian economy with capex and policy initiatives to drive long-term sustainable growth. The fundamentals of the Indian economy remain strong.

Your Company is committed to leading energy transition and shaping a sustainable tomorrow. Honeywell Automation India Limited is really dedicated to playing a lead role in the country's transformation to a sustainable future and is well on its way to delivering on its commitment to make all its facilities and operations carbon neutral by 2035.

Another key focus area for your Company is digital transformation. Your Company has a long experience in process control, cybersecurity and managed performance and is geared to cater to the requirement of its stakeholders and help them optimize operations, provide remote visibility and drive safety, reliability and efficiency. Through the integration of sustainability and industrial digitalization into its core business strategy, your Company aims to create long-term value for all shareholders.

Your Company's CSR activities, environmental initiatives and ethical corporate governance are focused on fulfilling our environmental, social and governance (ESG) responsibilities. I am proud of the progress your Company has made so far in providing sustainable solutions for all stakeholders around healthcare, education, infrastructure and community development. Your Company will continue to work further and make further impact to its people, families and the communities it serves.

Your Company has consistently invested in state-of-the-art facilities, cutting-edge technologies and highly skilled personnel. This has enabled it to deliver superior quality products and services to customers, meet international standards and surpass expectations. The industries which your Company serve includes process solutions, building solutions, IoT, global manufacturing and engineering services and the Company is well positioned for continuing global growth.

On behalf of the Management and Board of Directors of Honeywell Automation India Limited, I want to thank you for your trust, confidence and support. We look forward to your continued support as we drive the Company forward for future growth.

**Dr. Ganesh Natarajan**

Independent Director and  
Chairman (Non-Executive) - Board

# FROM THE MANAGING DIRECTOR'S DESK

**Dear Shareholders,**

FY 2022-23 was a strong year for your Company. Together, we posted highest ever revenue from company operations at ₹3,448 crore, registering year-on-year growth of 16.9%. Your Company's profit (after tax) was ₹438 crore, delivering a return of 12.8% on sales as against 11.5% in the previous year.

Most predictions point to a steady GDP growth in India, for a foreseeable future. This growth will demand new energy and infrastructure investments along with higher productivity and industrial efficiency. With a clear future Vision, your Company is determined to achieve the next phase of growth by strategically pursuing key capital investments in energy and infrastructure sectors, industrial digitalization to aid productivity and efficiency, participate in sustainable energy transition and promoting environmental stewardship. In this journey, your Company aims to leverage Honeywell's state-of-the-art technology and innovation and global experience.

Your Company is focused on creating measurable value for its customers and is committed to the highest standard of quality. The Company has delivered multiple projects in the areas of buildings, smart city infrastructure, and complex process industries. Your Company has a strong opportunity pipeline and a healthy orders' backlog. With a clear focus on sectors like oil and gas, oil refining and petrochemicals, fertilizers and agrochemicals / specialty chemicals, life sciences and pharma, alternate and new energy, metals and mining, pulp and paper, airports, tunnels, hospitals, data centers, and other infrastructure projects – the Company is excited about the future. With the country's strong focus on energy transition, your Company is well placed to become the automation and digitalization partner that addresses needs of renewable energy projects. Your Company's world-class automation and digitalization solutions will enable the upcoming giga-factories to be globally competitive, productive and efficient. Pharmaceutical and life sciences provide an attractive opportunity for your Company to meet their goals of operational excellence, productivity, safety, regulatory compliance and data driven decision making. Your Company's wide and rich portfolio of products, solutions, digital-software and services positions us well to participate in multiple opportunities, thereby managing the risks that may emerge from a few sectors growing slower than the others.

The two mega-vectors that your Company will ride on are – rapid Industrial Digitalization and Climate Change forcing the Sustainable Energy Transition. Digitalization brings the required agility, efficiency, productivity, and compliance management. Sustainable Energy Transition offers harnessing and shifting to new energy sources that are addressing the urgent need to stop climate change. For our nation, this transition also holds a significant potential to not only achieve energy security, but possibly a mega hub for supply to the other regions in the world.

While focusing on the above, your Company is resolute on its CSR programs. With a strong belief in equitable growth, we shall continue to fulfill our duties to drive CSR programs that benefit the society at large.

In conclusion, I am proud of the achievements and progress your Company has made throughout the last five years. Our unwavering commitment to excellence, innovation and customer satisfaction has been the driving force behind our success. I take this opportunity to extend my deepest gratitude to our committed employees – #thefutureshapers, our valued business partners and customers, and you – our loyal shareholders – for the unwavering support and trust. With your support, we have navigated unprecedented challenges, built a better resilience, embraced new opportunities and continued to push our boundaries to shape a better future. As we move forward, we remain steadfast in our pursuit of growth, sustainability and making a positive impact on the industries we serve. This is an exciting time for your Company, and in my humble opinion, the best is yet to come!

**Registration of e-mail address permanently with the Company/DPs:** To support the Green initiative, Members are requested to register their e-mail addresses with their concerned DPs, in respect of electronic holding and with TSR, in respect of physical holding. Further, those Members who have already registered their e-mail addresses are requested to keep their e-mail addresses validated/updated with their DPs/TSR for all future communications.

### 23. Tax on Dividend

Members may note that the “the IT Act” as amended by the Finance Act, 2020, mandates that dividends paid or distributed by a company after April 01, 2020 shall be taxable in the hands of members. The Company shall therefore be required to deduct TDS at the time of making the payment of final dividend. In order to enable us to determine the appropriate TDS rate as applicable, members are requested to submit the following documents in accordance with the provisions of the IT Act.

For resident shareholders, taxes shall be deducted at source under Section 194 of the IT Act as follows:

Members having valid PAN	10% or as notified by the Government of India
Members not having PAN / valid PAN	20% as per Section 206AA

However, no tax shall be deducted on the dividend payable to:

#### i. Resident individual:

If the total dividend to be received by them during Financial Year 2022-23 does not exceed ₹5,000 and also in cases where members provide Form 15G/ Form 15H (applicable to individuals aged 60 years or more) subject to the conditions specified in the IT Act.

#### ii. Resident Non-Individual Shareholder:

- Insurance Companies** - Self-declaration that it qualifies as ‘Insurer’ as per Section 2(7A) of the Insurance Act, 1938 and has full beneficial interest with respect to the ordinary shares owned by it along with self-attested copy of PAN card and certificate of registration with IRDA/ LIC/ GIC.
- Mutual Funds** - Self-declaration that it is registered with SEBI and is notified under Section 10 (23D) of the IT Act along with self-attested copy of PAN card and certificate of registration with SEBI.

c. **Alternative Investment fund** - Self-declaration that its income is exempt under Section 10 (23FBA) of the IT Act and they are registered with SEBI as Category I or Category II AIF along with self-attested copy of the PAN card and certificate of AIF registration with SEBI.

- d. **New Pension Scheme (NPS) Trust** - Self-declaration that it qualifies as NPS trust and income is eligible for exemption under section 10(44) of the IT Act and being regulated by the provisions of the Indian Trusts Act, 1882 along with self-attested copy of the PAN card.
- e. **Other Non-Individual Shareholders** - Self-attested copy of documentary evidence supporting the exemption along with self-attested copy of PAN card.
- f. Resident shareholders may also submit a lower/ Nil deduction certificate obtained from the respective jurisdictional tax officer u/s 197 of the IT Act, to claim a lower/Nil TDS. PAN is mandatory for members providing Form 15G /15H or any other document as mentioned above.

#### iii. Non-Resident Shareholder:

For non-resident shareholders, taxes are required to be withheld in accordance with the provisions of Section 195 and other applicable sections of the IT Act, at the rates in force. The withholding tax shall be at the rate of 20% (plus applicable surcharge and cess) or as notified by the Government of India on the amount of dividend payable. However, as per Section 90 of the IT Act, non-resident shareholders have the option to be governed by the provisions of the DTAA between India and the country of tax residence of the member, if treaty provisions are more beneficial to them. For this purpose, i.e. to avail the benefits under the DTAA, non-resident shareholders will have to provide the following:

- Copy of the PAN card allotted by the Indian Income Tax authorities.
- Copy of Tax Residency Certificate (TRC) for the FY 2022-23 obtained from the tax authorities of the country of tax residence, duly attested by member.
- Self-declaration in Form 10F.
- Self-declaration by the shareholder of having no permanent establishment in India in accordance with the applicable tax treaty.
- Self-declaration of beneficial ownership by the non-resident shareholder.
- Lower tax deduction certificate obtained from the respective jurisdictional tax officer u/s 197 r.t.w. Section 195 of the IT Act.

#### Section 206AB-High rate for non-filers

TDS to be deducted at higher rate in case of non-filers of Return of Income.

The Finance Act, 2021, has *inter alia* inserted the provisions of section 206AB of the IT Act with effect from July 1, 2021. The provisions of section 206AB of the IT Act require the deductor to deduct tax at higher of the following rates from amount paid / credited to 'specified person':

- a At twice the rate specified in the relevant provision of the Act; or
- b At twice the rates or rates in force; or
- c At the rate of 5%

The 'specified person' means a person who has:

- a. Not filed return of income for both of the two assessment years relevant to the two previous years immediately prior to the previous year in which tax is required to be deducted, for which the time limit of filing return of income under sub-section (1) of section 139 has expired; and
- b. Subjected to tax deduction/collection at source in aggregate amounting to ₹50,000 or more in each of such two immediate previous years.

**Non-applicability-** The non-resident who does not have a permanent establishment.

**In case of Foreign Institutional Investors I Foreign Portfolio Investors,** tax will be deducted @ 20% (plus applicable surcharge and cess).

The shareholders are requested to submit/upload the aforementioned documents on the link

## Annexure - 2 of Directors' Report

### Form No. MR-3

#### Secretarial Audit Report for the Financial Year Ended March 31, 2023

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,  
The Members,  
**HONEYWELL AUTOMATION INDIA LIMITED**  
56 & 57, Hadapsar Industrial Estate,  
Pune- 411013, Maharashtra

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by HONEYWELL AUTOMATION INDIA LIMITED (CIN: L29299PN1984PLC017951) (Hereinafter called 'the Company').

Secretarial Audit was conducted for the financial year 2022-23, in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances of the Company and for expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, the explanations and clarifications given to me and representations made by the Management, during the audit period covering the financial year ended on March 31, 2023 ("Audit Period"), complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and legal compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the Audit Period according to the provisions of the following list of laws and regulations:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;

## Annexure to the Secretarial Audit Report of Honeywell Automation India Limited (2022-23)

### Auditors' Responsibility

My Report of even date is to be read along with this letter.

In accordance with the ICSI Auditing Standards (CSAS1 to CSAS4) I wish to state as under-

- Maintenance of secretarial record is the responsibility of the Management of the Company. My responsibility as the Auditor is to express the opinion on the compliance with the applicable laws and maintenance of Records based on Secretarial Audit conducted by me.
- The Secretarial Audit needs to be conducted in accordance with applicable Auditing Standards. These Standards require that the Auditor should comply with statutory and regulatory requirements and plan and perform the audit to obtain reasonable assurance about compliance with applicable laws and maintenance of Records.
- I am also responsible to perform procedures to identify, assess and respond to the risks of material misstatement or non-compliance arising from the Company's failure appropriately to account for or disclose an event or transaction. However, due to the inherent limitations of an audit including internal, financial and operating controls, there is an unavoidable risk that some Misstatements or material non-compliances may not be detected, even though the audit was properly planned and performed in accordance with the Standards.

Accordingly, I wish to state as under-

1. Maintenance of secretarial record is the responsibility of the management of the company. My responsibility is to express an opinion on these secretarial records based on my audit.
2. I have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the Secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. I believe that the processes and practices, I followed provide a reasonable basis for my opinion.
3. I have not verified the correctness and appropriateness of financial records and Books of Accounts of the Company.
4. Wherever required, I have obtained the Management representation about the compliance of laws, rules and regulations and happening of events etc.
5. The compliance of the provisions of Corporate and other applicable laws, rules, regulations, standards are the responsibility of management. My examination was limited to the verification of procedures on test basis.
6. The Secretarial Audit report is neither an assurance as to the future viability of the company nor of the efficacy or effectiveness with which the management has conducted the affairs of the company.

# Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo

[Pursuant to Section 134(3)(m) of the Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014]

### A) Conservation of Energy

The Company continues to make every effort to conserve energy required either through technological upgradation or best operating practices for the facilities. In continuation to the same, your Company has implemented following measures to upgrade and conserve energy:

- Replacement of conventional type UPS with Energy Efficient Modular type UPS (4 nos.) to reduce the power consumption and improve efficiency leading to cost savings by 8.0%, equivalent to 72.08 MT of CO<sub>2</sub> reduction.
- Replacement of total 176 nos. of R22 based refrigerant Air conditioning units of various capacity with Energy star rated R32 refrigerant units. The proposed units are Energy efficient and also the refrigerant is ozone friendly. The project brings cost savings of 38.5%, equivalent to 255.46 MT of CO<sub>2</sub> reduction.
- Replacement of old Central chiller with Energy Efficient screw chiller along EE pumps and Cooling Towers to reduce power consumption and to improve operating efficiency. The cost savings is by 48.5%, equivalent to 194.37 MT of CO<sub>2</sub> reduction.
- Total 400 nos. of occupancy sensor installed to optimize on lighting usage. The cost savings of about 15%, equivalent to 28.81 MT of CO<sub>2</sub> reduction.

### B) Technology Absorption

The Company has obtained IREC for Phulgaon and achieved Sustainability goals, 85.8 MT of Carbon emission off-set annual target in line with Honeywell Carbon Neutral Goal by 2035. I-REC Certificates, representing 110.000000 MWh of electricity generated from renewable sources.

# Management Discussion and Analysis

## Key Financial Indicators and Performance Highlights for FY 2022-23

	As at March 31, 2023	As at March 31, 2022	Variation
Revenue from Operations (₹ in Lakhs)	3,44,759	2,94,832	Up 1,693 bps
Operating Income (%)	18.9%	17.5%	Up 130 bps
Net Income (%)	12.8%	11.5%	Up 122 bps

## INDUSTRY OUTLOOK AND OPPORTUNITIES

The Company's operating results are influenced by macro-economic development which can have effect on trends such as industrial production, capital spending, commercial and infrastructure construction, commodity prices and foreign exchange variations.

### India Economic Overview

After real GDP contracted in FY 2020-21 due to CoVID-19 pandemic, growth bounced back strongly in FY 2021-22, supported by accommodative monetary and fiscal policies and wide vaccine coverage. Consequently, in FY 2022-23, India emerged as one of the fastest growing economies in the world, despite significant challenges in the global environment – including renewed disruptions of supply lines following rise in geopolitical tensions, synchronized tightening of global monetary policies and inflationary pressures. All macro indicators like IIP, GST collections and mobility indices have shown improvement. In FY2022-23, India's real GDP expanded at 7.2%.

Government of India continues to strengthen key sectors of the Indian economy with capex and policy initiatives to drive long-term sustainable growth. The Union Budget for FY 2023-24 highlighted key focus areas primarily economic reforms aimed at improving India's manufacturing competitiveness, safeguarding supply chains and reducing systemic financial risks. The government has highlighted energy transition as a core policy initiative that will encourage investor interest in solar, hydrogen and electric mobility projects.

India is also firmly on a digital transformation journey. With data consumption on the rise, cloud adoption accelerating and technology demand soaring higher than ever before, Indian corporations are investing in massive leaps forward to meet this demand. Globally, India ranks first in digital transactions and second in smartphone and internet users. India's data center capacity is expected to double to ~1,700 MW by FY 2024-25 from ~870 MW for FY 2022-23 driven by rising adoption by government, enterprises and public. This will give impetus to key Government initiatives such as making our cities smarter and safer. It will also drive

enterprises to adopt digitally enabled innovative business models. (Source: CRISIL)

While India is on a steady recovery path, global geo-political developments resulting in tightening of monetary policies in some countries may have some impact on capex investments and consumption amidst uncertainty. Broad supply chain disruptions will continue to cause cost inflationary pressure in the near future. The Company is confident on the fundamentals of the Indian economy to achieve growth in the longer term.

### CoVID-19 Update

Since the Omicron-driven spike in early 2022, CoVID-19 infections have remained low and declining, thanks to rising vaccination rates. Should, for any reason, infections rise significantly again triggering new state or national level mobility restrictions, this may affect India's growth outlook.

### Employee Health & Safety

The Company continues to monitor the situation arising due to prolonged spread of CoVID-19 after a decline in numbers during FY 2022-23. We are prioritizing the health and safety of our employees. Out of abundant caution for the health of our employees and to support local Government initiatives to stem the spread of the virus, we have implemented several precautions at our facilities in line with applicable WHO and/or local authority guidelines.

### Industry Overview

**Construction:** The Indian construction sector is expected to remain steady in the years ahead. The Union budget for FY 2023-24 has put infrastructure development as a top priority for the upcoming financial year. With a focus on expanding roads and bridges, the infrastructure sector is poised for growth. Additionally, India's growing population and rising household incomes will continue to propel the demand.

Infrastructure construction spending is on track to expand 15.1% in 2022 and 15.7% in 2023. Energy infrastructure construction will post the highest growth rate in both years. The Indian government has made the infrastructure sector a key focus area. The newly announced Union Budget 2023 put infrastructure investment in focus. As a share of total expenditure, investments on capital expenditure are at 22%, the highest in the last 15 years. Going forward, with concerted efforts from the Government to boost investments in infrastructure, the share of investment in construction for projects such as roads, metros, smart cities, data centers, warehouses, water supply, railways and airports is expected to continue to rise in foreseeable future. However, despite a robust demand revival in 2022, rising interest rates and the risk of global economic slowdown could potentially hinder the industry's growth. (Source: IHS)

**Manufacturing:** The manufacturing sector has emerged as one of the sectors with high growth potential in India. The

capacity utilization in the manufacturing sector has picked up over the last three quarters to 75.3% by March 31, 2023 compared with the long-term average of 73.7%. Further to the existing PLI schemes in 14 key sectors, including automobile and auto components, electronics and IT hardware, telecom, pharmaceuticals, solar modules, metals and mining, textiles and apparel, white goods, drones and advanced chemistry cell batteries, the PLI scheme is likely to be extended to more sectors which is under consideration. The intent is to make India self-reliant and also a global hub for manufacturing.

**Energy:** With increasing population, urbanization and industrialization, India's energy requirement has already more than doubled since 2000 and is expected to increase considerably in the coming years. Per IEA's World Energy Outlook 2021, India's current share in global primary energy consumption is 6.1% and is likely to increase to 9.8% by 2050. To meet this increased energy requirement, the Government is adopting strategies to enhance domestic oil and gas production, shifting to gas based economy and technological upgradation to improve refinery processes. It has also taken up development of National Gas Grid and city gas distribution networks to provide clean and green fuel to the public. India's energy mix has been seeing a shift from more conventional energy sources to renewables, in line with the Government's aim of achieving 500 GW installed capacity from non-fossil fuel-based capacity by 2030. Share of renewables has increased to 11% in the generation mix as of fiscal year (FY) 2022 and is expected to double by 2030. (Source: Ministry of Power, IHS)

## OPERATIONS

The Company has only one segment as per Ind-AS namely "Automation and Control Systems", across various business operations, as stated below:

### Honeywell Process Solutions

The Process Solutions business continues to deliver strong performance across all the key financial parameters despite global supply chain issues that have impacted material supplies. We saw strong traction with many of our strategic customers and EPCs, with our products businesses delivering a strong performance. Our strong engagement in the Life Sciences vertical also helped with significant tailwinds which resulted in certain key wins. The Process Solutions provides leading technologies from the plant floor to the boardroom as well as comprehensive lifecycle services to ensure more productive and stable operations. We also continued to leverage our wide portfolio of industrial automation products and solutions that help customers to operate safely, reliably, efficiently, sustainably and achieve profitable operations. We have the expertise and breadth of resources to execute projects of every size and complexity in the oil and gas, refining, pulp and paper, industrial power generation, chemicals and petrochemicals, biofuels, pharma and life sciences and metals, minerals and mining industries. We continue to expand our reach in various underpenetrated geographies through channel partners and OEM engagements. These have helped the Process

Solutions business of the Company to deliver a reasonable performance in a challenging environment.

The Process Solutions business will continue to stay focused on its core strategies and aggressively leverage the new growth levers of digitization, sustainability and tailwinds across various industry segments like metals, life sciences, pharmaceuticals and gas etc. The entire business landscape is changing as the country expands its gas network, drives sustainability goals, builds energy security & independence and encourages use of digital solutions. The Company is excited about the opportunities that these industries bring to the business. Apart from the core markets and solutions, the Company is uniquely positioned to drive growth in areas such as pharmaceuticals, specialty chemicals and cyber security. The Company is also enhancing its reach and coverage to serve the renewable energy market with new, innovative solutions. As many corporates shift their focus to be carbon neutral and environmentally compliant, the Company would like to serve these new needs in the industry. To enable our growth in all these areas, we will continue to focus on expanding our local engineering, product development and manufacturing capabilities.

### Honeywell Building Solutions

The Building Solutions business provides automation and control technologies that help make buildings green, safe, productive and smart in verticals like industrials, data centers, pharma and healthcare, energy, premium commercial, transport, infrastructure, etc. For these segments, the business provides state-of-the-art solutions like intelligent buildings suite comprising building management systems, fire detection and alarm systems, access control systems, video surveillance systems, integrated security systems and integrated building management systems based on Honeywell's Enterprise Buildings Integrator™. The business provides aftermarket services for various control systems as well as comprehensive utilities' operations and maintenance services for mechanical and electrical systems in buildings.

There has been continued Government funding on building core infrastructure such as airports, metros, railways, ports, safe cities and large-scale data centers. We see opportunities for value-added services like analytics, energy optimization and healthcare in the critical operator segment. In addition, the Company is also positioned to drive growth in solutions like connected buildings and cybersecurity.

### Building Management Systems

The Building Management Systems business is a global leader in the building automation space and maintains a leadership position in India. With a wide range of building automation offerings, including Healthy Buildings and HVAC applications the business is already present across multiple verticals in India. These include large mission-critical facilities like pharma and healthcare and government infrastructure like airports, stadiums, metro stations, as well as IT, residential, industrial and hospitality. Building

## MANAGEMENT DISCUSSION AND ANALYSIS

Management Systems has a diverse portfolio comprising building control solutions and global field devices.

The business will continue to stay focused on its core strategies through commercial excellence levers such as sales deployment, on-boarding, channel excellence, pipeline management and new product offerings. This will enable the Company to grow via its existing product portfolio. Business will also be focusing on vertical which is growing like Pharma, Healthcare, Datacenter etc. Exciting new initiatives such as Connected Buildings and upcoming new product launches along with enhanced reach will help the Company grow in an evolving market.

### **Safety Sensing Technologies (Formerly Advanced Sensing Technologies)**

The Safety Sensing Technologies (SST) business has multiple diversified customer accounts from transportation, aerospace, healthcare and industrial verticals. SST also added new product portfolio to leverage mega trend in Electric Vehicles, Green Hydrogen and other new sustainable ideas. This business was focused on key account management, demand generation and localization during FY 2022-23. SST offers a wide portfolio, which includes pressure switches, airflow sensors, humidity and temperature sensors, oxygen and breath sensors, helped the business win in healthcare and other industrial verticals. This business also leveraged its defense and military product portfolio to get into new military programs of government customers.

SST business did a good job in product development for upcoming new verticals and also, on-time supply to customers by efficient operations management. This business rationalized its portfolio and gave priority to right technologies and future customer demand. SST business also built application engineering support system in India to help our customers develop their ideas faster. This has given a lead in getting into new customer programs faster. SST business continued its efforts in consolidating business accounts by concentrating on master distributors; this helped improved our sales productivity and enabled us to focus on strategic accounts. This business also launched multiple new products that address customer needs in water management, medical equipment, machine safety and healthcare. Our Pune factory is a business enabler for this business and played a significant role during the global supply crisis. The SST business could gain high customer satisfaction because of local manufacturing and better control on supply chain and quality.

### **Global Engineering Services**

Global Engineering Services fosters engineering and innovation across verticals market in the Process Automation and Building Automation businesses by providing various engineering services. The Global Engineering Services business provides basic and detailed engineering, application software development, project management services, solution consulting, site commissioning for Projects, Life Cycle Services, Connected Process and Building Solutions of Honeywell. This division delivers

projects efficiently by leveraging competence, economy of scale, etc. and improving the productivity and cost competitiveness for several Honeywell business units and regional affiliates.

For Honeywell Process Solutions, it serves in many core verticals like O&G, R&P, Power, MMM, etc. and new areas like life sciences, energy management and storage, etc. For Honeywell Building Solutions, it provides services for airports, commercial and residential buildings, data centers and mega projects like smart cities.

Global Engineering Services strives for "First-Time-Right" quality, built on matured processes and a strong continuous improvement culture. It leverages its lean thinking, DevOps and automation to assure quality and responsive customer-centric strategy to enhance customer experience.

This business continues to deliver good results consistently over the years. It has increased its footprint globally through new portfolios, offerings and geographic expansion, supporting Honeywell's global growth agenda. Global Engineering Services is making investments in talent development and retention strategies in the conventional and new technology space for accelerated growth in various strategic business units.

### **Global Contract Manufacturing**

As a contract manufacturer this business focuses on delivering high quality products and project solutions right and fast to India and the global market. The business is focused on delivering quality products to customers through Built-In Quality and Continuous Improvement processes under the Honeywell Accelerator framework. The Company continues to invest on meaningful automation to enhance capacity and leverage local supply base to be cost competitive and deliver faster to the markets. COVID-19 pandemic caused global supply shortages for certain electronic components, impacting supply chain, delay in delivery schedules and inflationary trends in cost of raw materials and freight.

The Company maintains high standards in the area of HSE and continuous improvement culture. The Company continues to leverage local talent, talent development and retention strategy for sustainable business growth.

### **Leadership and Talent**

The Company believes in the immense potential of its human capital and continues to invest in technical and leadership capabilities as key enablers for business growth. The Company leverages processes that have been the cornerstone of Honeywell's global growth. These include HPD and MRR. These foundational processes enable careful and continual review of leadership talent within the organization, while promoting meritocracy, clarity in goals, providing structured feedback, development planning, IDP and proactive succession planning for all key positions across the organization. Developing leadership capability in employees is a key expectation of every business leader and the Company actively promotes internal movements for

career growth. Development plans help focus on capability building and skills development to enable leaders to take up larger roles. The HPD process ensures that there is a consistent framework to assess our employees on goals and behaviors, creating opportunities for objective feedback and discussions on development plans.

## RISKS AND CONCERNs

The Company generates a good percentage of its sales and profits from both direct customers and its business with Honeywell International Inc. and its affiliates. The Company's ability to maintain or grow direct business depends upon various macro-economic factors and its business with Honeywell International depends upon a number of performance factors, including its ability to:

- (i) Identify emerging trends and customer requirements and develop product and service offerings superior to those of its competitors
- (ii) Meet or surpass the price, quality and delivery requirements of Honeywell and its end-customers in a cost- effective and competitive manner
- (iii) Develop and retain employees and leaders with the necessary expertise.
- (iv) Honeywell-specific business considerations (independent of its shareholdings in the Company), including changes in Honeywell's strategies regarding utilization of alternative opportunities to source products and services currently provided by the Company (including from alternative sources that Honeywell may acquire or develop within its own Group), may also reduce the level and/or mix of Honeywell's business with the Company.

An overall aggressive competitive landscape, pricing pressures on sale of goods and services to Honeywell, or a reduction in the volume or change in the mix of orders or sales to Honeywell can be expected to have a material adverse impact on the revenue and profits of the Company.

While Company has diversified products and operates within varied industries, major macro and micro economic factors pose some risks to growth which can have an impact on the performance. Some of these risks are highlighted below:

- **Resurgence CoVID-19 variant:** Mutations in CoVID-19 virus are leading to multiple variants that cause varying intensity of infections across the world. Any significant wave in future can impact recovery, demand, consumer sentiment and delay in private investment.
- **Geopolitical risks:** The ongoing Russia-Ukraine war has had a wide-ranging and far-reaching impact on the global economy, India's close economic ties to both countries have been disrupted, leading to higher trading cost and the effect of sanctions on Russia.
- **High oil import bill:** International crude oil prices have risen sharply. India's crude oil import bill nearly doubled to USD 119 billion in the financial year that ended on March 31, 2023, as energy prices soared globally following the return of demand and war in Ukraine. India's oil import dependence was 85 per cent in 2019-20, which declined marginally to 84.4 per cent in the following year before climbing to 85.5 per cent in 2021-22. Higher crude oil import bill is expected to dent the macroeconomic parameters. Owing to its

## MANAGEMENT DISCUSSION AND ANALYSIS

high dependence on imported oil, high share of food in consumer basket and an elevated risk of capital outflows, India's economy remains vulnerable to the global commodity price shock and ongoing global financial tightening. While it is less reliant on exports than many regional peers, slowing global demand would also weigh on growth via reduced exports and foreign capital inflows. (Source: PPAC)

- **Forex rate fluctuations:** The rupee has exhibited two-way movements over the past six months, reflecting both global and domestic factors. Looking ahead, the protracted geopolitical tensions, heightened volatility in global financial markets, elevated global sovereign bond yields on the back of more than currently anticipated monetary policy tightening in major advanced economies and new COVID-19 mutations could lead to a broader risk aversion towards emerging market economies' assets and net capital outflows. Such developments can put downward pressure on the rupee.
- **Global supply chain disruption and inflation:** Worsening of supply disruptions and renewed power sector issues could impact the industrial output recovery, while higher energy costs may squeeze corporate profit margins and add to already high consumer price inflation, subsequently prolonging the recovery in demand and investment can resulting in slower GDP growth in FY 2023–24.
- **Competition:** The Company is witnessing an overall increasingly competitive landscape and pricing pressures on sale of goods and services in both domestic and exports segments, which can impact the revenue and profits of the Company.

### INTERNAL CONTROL

The Company has established adequate internal control procedures commensurate with the nature of its business and size of its operations. The internal control process of the Company has been effective and provides reasonable assurance on reliability of financial information, compliances with laws and regulations in force and standard operating procedures. It ensures documentation and evaluation of entity-level controls through existing policies and procedures, primarily to identify significant gaps and define key actions for improvement. The Company has continued its efforts to align all its processes and controls with global best practices. Even though we have not experienced any material impact to our internal control over financial reporting during the COVID-19 pandemic, we have enhanced our oversight and monitoring during the close and reporting process.

In addition to external audits, the financial and operating controls of the Company are reviewed regularly by the internal audit team as per the annual plan approved by the Audit Committee. Audit observations and follow-up actions thereon are tracked for resolution by the Company and reported to the Audit Committee.

The Audit Committee of the Board of Directors, comprising independent directors, regularly reviews the audit plans, significant audit findings, adequacy of internal controls, compliance with accounting standards as well as reasons for changes in accounting policies and practices, if any.

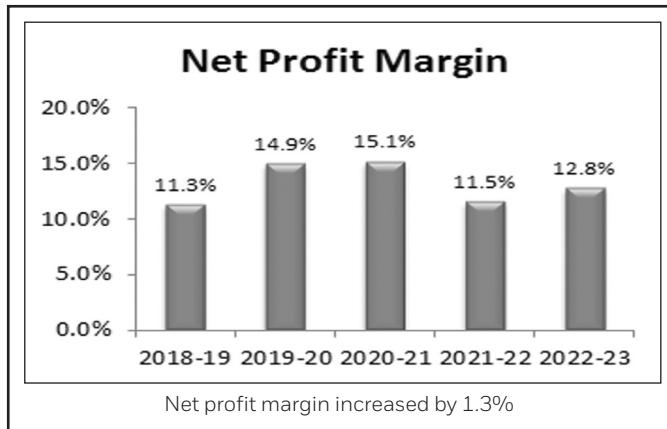

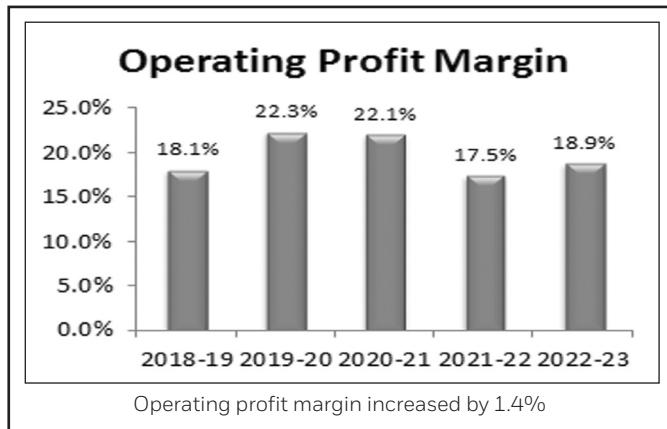

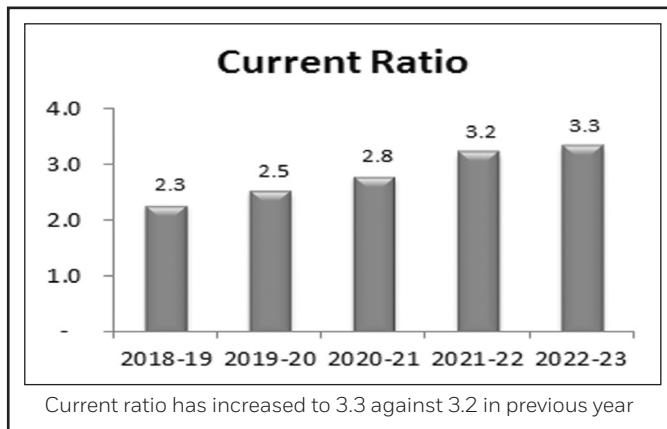

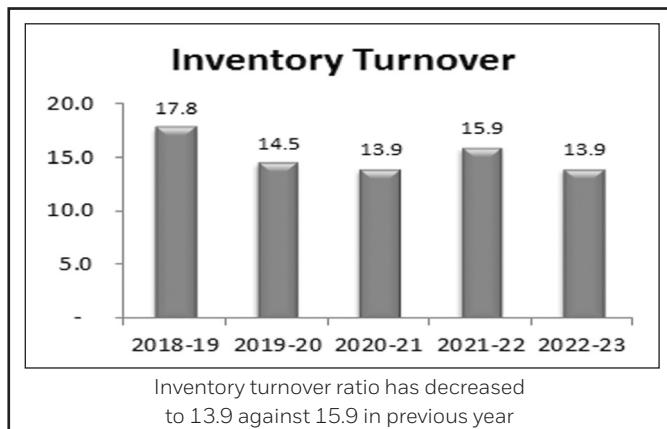

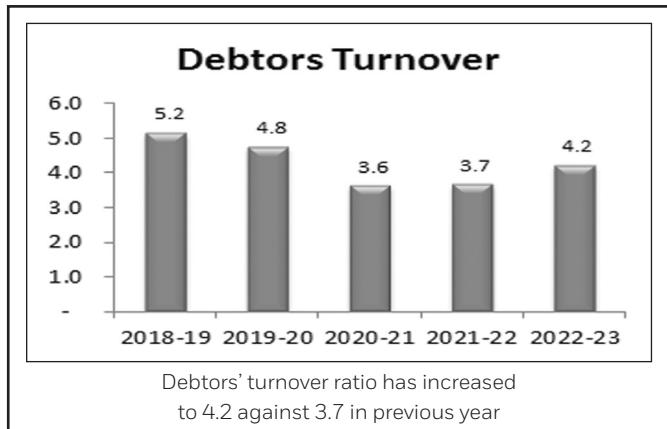

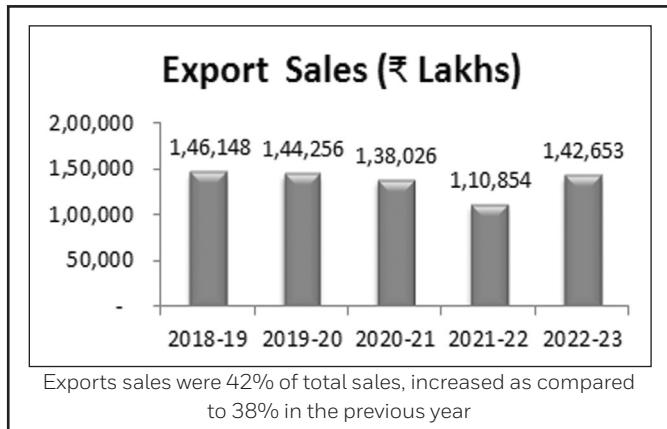

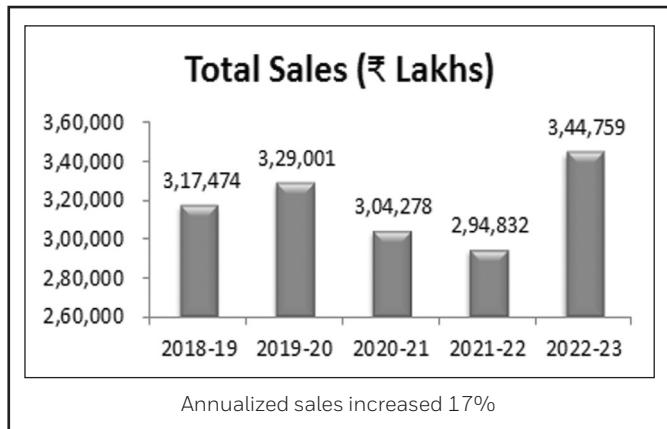

The Company's Code of Conduct sets out the fundamental standards to be followed by employees in all of the business dealings and day-to-day operations. The code provides guidance around financial reporting, ethical conduct, regulatory compliance, conflicts of interest's review and reporting of concerns.

The Company also has a robust Integrity and Compliance program, in which all company employees undergo communications and trainings on the Code of Conduct. It enables employees to become familiar with leadership expectations on behaviors and compliance, legal requirements, avoiding conflicts of interest, providing a healthy and safe workplace, safeguarding Company property and information, appropriate use of information technology resources and understanding how to report any suspected unethical or illegal conduct, without fear of retaliation. The Company also has a formal process to receive and address incidents related to business conduct lodged by employees and other stakeholders.

### SUMMARY

The Company's mix of exports revenue increased as compared to the previous period. Overall revenue improved 16.9%. Net income was 12.8% of sales as compared to 11.5% in the previous year. Increased competitive environment in both domestic and exports segments, supply chain disruptions and inflation continue be a challenge. These risks and concerns as mentioned above are being addressed through concerted efforts on operational excellence, driving productivity and cost rationalization. The Company is continuously driving new productivity initiatives to remain committed to the journey of profitable growth.

Details of significant changes (change of 25% or more as compared to the immediate previous financial year), is as under. Please note that the interest coverage ratio and debt equity ratio is not applicable to the Company as there is no debt.

## 9. Enterprise Risk Management

The Company's Enterprise Risk Management process ensures that the management controls and effectively mitigates risk through means of a properly defined framework. The risk areas are reviewed periodically by the Risk Management Committee through an Enterprise Risk Management Framework and thrice in a financial year by the Committee members.

Identification, assessment and mitigation of risk is facilitated entity-wide, re-assessed periodically by the Risk Management Committee on May 11, 2022, November 8, 2022 and February 8, 2023. We are exposed to a host of risks owing to a dynamic business environment including strategic, operational, financial and compliance. In addition, the key aspects like working capital (liquidity), IT and cybersecurity, unplanned incidents like pandemic risk and changes in government regulations are assessed as a part of Company's risk framework. The Enterprise Risk Management framework assesses management's actions to mitigate the exposures in a timely manner and is critical to achieving our business objectives.

The disclosures regarding commodity price risk and hedging activities pursuant to Regulation 34(3) read with clause 9(n) of Part C of Schedule V of the SEBI Listing Regulations is Nil.

# Business Responsibility and Sustainability Report

## Foreword

### Dear Stakeholders

Honeywell Automation India Limited, an integrated automation, industrial software, and sustainability solutions provider, is developing technologies that help large and small organizations achieve their environmental, social and governance (ESG) goals along with their business results. The Company offers a portfolio of futuristic technologies to help customers and their businesses digitalize operations, reduce greenhouse gas (GHG) emissions, save energy, measure and reduce carbon impact and support the adoption of renewable energy sources.

We do not believe climate-related risks are reasonably likely to have a material effect in the foreseeable near future on the company's business or the markets it serves, nor on our results of operations, capital expenditure or financial position. Honeywell is uniquely positioned to shape a safer and more sustainable future. We continue to invent, innovate, and develop technologies that provide our customers with adaptable and efficient solutions to address their safety, productivity, energy-efficiency and environmental needs.

The Company presents Business Responsibility & Sustainability Report (BRSR) of the Company pursuant to the provisions of Regulation 34(2)(f) of the SEBI Listing Regulations, 2015 describing the initiatives taken by the Company from an environmental, social and governance perspective.

# Independent Auditor's Report

To The Members of Honeywell Automation India Limited

## Report on the Audit of the Financial Statements

### Opinion

We have audited the accompanying financial statements of Honeywell Automation India Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2023, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2023, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1	<b>Accuracy of revenue recognition in line with Ind AS 115 – "Revenue from Contracts with Customers"</b>  The Company recognizes revenue from turnkey contracts on a percentage of completion basis in proportion of the contract costs incurred at balance sheet date, relative to the total estimated costs of the contract at completion. The recognition of revenue is therefore dependent on estimates in relation to total estimated costs of each such contract. The estimation of total costs involves significant judgment and is assessed throughout the period of the contract to reflect any changes based on the latest available information. Cost contingencies are included in these estimates to take into account specific uncertain risks, arising within each contract. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.  Given the significance of the judgments necessary to estimate costs associated with these long-term contracts (which varies upon the length of the contract), auditing long-term contracts requires a high degree of auditor judgment.	<b>Principal Audit Procedures Performed:</b> <ul style="list-style-type: none"><li>• We tested the effectiveness of internal controls over the recognition of revenue on Percentage of Completion basis and the determination of estimated contract costs including controls over the review of management's assumptions and key inputs used to recognize revenue and costs on long-term contracts using the input method on basis of cost incurred.</li><li>• We tested the relevant underlying computer application systems used in recording revenue/ project costs and budgeting systems including system generated reports.</li><li>• We selected samples of ongoing turnkey contracts, wherein revenue was recorded on percentage of completion basis, and performed the following:<ul style="list-style-type: none"><li>- tested contractual terms by agreeing these back to signed contracts, tested the mathematical accuracy of the cost incurred till date to budgeted total cost and re-performed the calculation of revenue recognized during the year based on the percentage of completion;</li></ul></li></ul>

Sr. No.	Key Audit Matter	Auditor's Response
	<p>Refer to Note Number. 2(g) and Note number 21 of the Financial Statements.</p>	<ul style="list-style-type: none"> <li>- tested the actual costs incurred on construction works during the reporting period with supporting system reports on project status and extent of obligations fulfilled against the Company's estimates as provided in prior periods or initial budget to identify significant variations and evaluate whether those variations have been considered appropriately and timely.</li> <li>- performed enquiries with the project managers for the samples selected and corroborated their responses to the contract testing.</li> <li>- tested management's estimates of the impact to revenue and budgeted costs arising from scope changes made to the original contracts, claims, disputes and liquidation damages with reference to supporting documents including variation orders/executed purchase orders and correspondences between the Company and the customers.</li> <li>- performed a retrospective review of costs incurred with costs estimated to assess management's ability to achieve estimates and to identify potential bias in the recognition of revenue over time, if any.</li> </ul>
2	<p><b>Evaluation of Provisions, disclosures and analysis with respect to direct and indirect tax litigations</b></p> <p>The Company has various disputes/litigations related to direct and indirect taxes in various states and at various levels of appellate authorities.</p> <p>The evaluation of the Company's position and determination of possible outcome of these disputes and provisions and related disclosures, if any, required to be made in the books involves significant management judgment.</p> <p>Refer Note 2(L) and note 34 to the financial statements.</p>	<p><b>Principal Audit Procedures Performed:</b></p> <ul style="list-style-type: none"> <li>• We assessed management's processes and tested the internal controls implemented for the identification, recognition and measurement of tax positions and its assessment of the potential impact on the Company.</li> <li>• We received a statement of all ongoing disputes/litigations along with the necessary documentation and <ul style="list-style-type: none"> <li>- We evaluated management's assessments including advice/opinion obtained from external consultants/legal advisors with respect to prospects of success of appeals and tax proceedings.</li> </ul> </li> </ul> <p>We involved our internal experts to challenge the management's position on the select litigations and to consider legal precedence and other rulings in evaluating management's position on these tax positions.</p>

#### Information Other than the Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's report including specific Annexures to Board's Report and Management Discussion and Analysis, but does not include financial statements and our auditor's report thereon.

- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

## INDEPENDENT AUDITOR'S REPORT

- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to

communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

1. As required by Section 143(3) of the Act, based on our audit that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the company so far as it appears from our examination of those books, except for keeping backup on daily basis of such books of account maintained in electronic mode, in a server physically located in India (refer Note 43 to the financial statements).
  - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
  - d) In our opinion, the aforesaid financial statements comply with the specified under Section 133 of the Act.
  - e) On the basis of the written representations received from the directors as on 31st March 2023 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2023 from being appointed as a director in terms of Section 164(2) of the Act.
  - f) The observation relating to the maintenance of accounts and other matters connected therewith, are as stated in paragraph (b) above.
  - g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements.

h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended,

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements - Refer Note 34 to the financial statements;
  - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts - Refer Note 35 to the financial statements
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
  - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.  
(b) The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

## INDEPENDENT AUDITOR'S REPORT

- (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with section 123 of the Act, as applicable.  
As stated in note 39 to the financial statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend proposed is in accordance with section 123 of the Act, as applicable.
- vi. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company w.e.f. April 1, 2023,

and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended 31st March 2023.

- 2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

## Annexure “A” to the Independent Auditor’s Report

(Referred to in paragraph 1 (g) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

### Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to financial statements of **Honeywell Automation India Limited** (“the Company”) as of 31st March 2023 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

#### Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls with reference to financial statements based on criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the

design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

#### Meaning of Internal Financial Controls with reference to financial statements

A Company’s internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## INDEPENDENT AUDITOR'S REPORT

### Opinion

In our opinion, to the best of our information and according to the explanations given to us, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March, 2023, based the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Annexure “B” to the Independent Auditors’ Report

**(Referred to in paragraph 2 under ‘Reporting on Other Legal and Regulatory Requirements’ section of our report of even date)**

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment, Capital work-in-progress and relevant details of right-of-use assets.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a program of verification of Property, Plant and Equipment to cover all the items in a phased manner over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) Based on our examination of the title deeds and property tax paid receipts provided to us, we report that, the title deed of all the immovable property, (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favour of the Company) disclosed in the financial statements included in (property, plant and equipment and capital work-in progress) are held in the name of the Company as at the balance sheet date.
- (d) The Company has not revalued any of its Property, Plant and Equipment (including Right-of-use assets) and intangible assets during the year.
- (e) No proceedings have been initiated during the year or are pending against the Company as at 31st March 2023 for holding any benami property under the Benami Transaction (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- (ii) (a) The inventories except for goods in transit were physically verified during the year by the Management at reasonable intervals. In our opinion and according to the information and explanation given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of account.
- (b) According to the information and explanation given to us, at any point of time of the year, the Company has not been sanctioned any working capital facility from banks or financial institutions and hence reporting under clause 3 (ii) (b) of the order is not applicable.
- (iii) The Company has not made any investments in, provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, and hence reporting under clause 3 (iii) of the Order is not applicable.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Act in respect of investments made by the Company. According to the information and explanations given to us, the Company has not granted loans or provided guarantees and securities.
- (v) The Company has not accepted any deposits from the public and hence reporting under clause 3 (v) of the Order is not applicable to the Company.
- (vi) The maintenance of cost records has been specified by the Central Government under section 148(1) of the Companies Act,2013. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended prescribed by the Central Government under sub-section (1) of Section 148 of the Companies Act, 2013 and are of the opinion that, *prima facie*, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) In respect of statutory dues:
  - (a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income-tax, Customs Duty, Goods and Service Tax (GST), Cess and other material statutory dues applicable to it to the appropriate authorities.
 

There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Customs Duty, GST, Cess and other material statutory dues in arrears as at 31st March 2023 for a period of more than six months from the date they became payable.
  - (b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on 31st March 2023 on account of disputes are given below:

## INDEPENDENT AUDITOR'S REPORT

- (viii) There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.
- (ix) (a) The Company has not taken any loans or borrowings from any lender. Hence reporting under clause 3 (ix) (a) of the Order is not applicable to the Company.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) The Company has not taken any term loan during the year and there are no unutilised term loans at the beginning of the year and hence, reporting under clause 3 (ix)(c) of the Order is not applicable.
- (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, *prima facie*, not been used during the year for long-term purposes by the Company.
- (e) The Company did not have any subsidiary or associate or joint venture during the year and hence, reporting under clause 3 (ix)(e) of the Order is not applicable.
- (f) The Company has not raised any loans during the year and hence reporting on clause 3 (ix)(f) of the Order is not applicable.
- (x) (a) The Company has not issued any of its securities (including debt instruments) during the year and hence reporting under clause 3 (x) (a) of the Order is not applicable to the Company.
- (b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3 (x) (b) of the Order is not applicable to the Company.
- (xi) (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) We have taken into consideration the whistle-blower complains received by the Company during the year and provided to us, when performing our audit.
- (xii) The Company is not a Nidhi Company and hence reporting under clause 3 (xii) of the Order is not applicable.
- (xiii) In our opinion, the Company is in compliance with Section 177 and 188 of the Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.
- (xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and nature of its business.
- (b) We have considered, the internal audit issued to the Company during the year and covering period upto March 2023 and draft of the internal audit reports where issued after the balance sheet date covering period April-2023 for the period under audit.
- (xv) In our opinion, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with them and hence provisions of Section 192 of the Companies Act, 2013 are not applicable to the Company.
- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3 (xvi) (a), (b) and (c) of the Order is not applicable.  
The group does not have any Core Investment Company (CIC) as a part of the group and accordingly reporting under clause 3 (xvi) (d) of the order is not applicable.
- (xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.

(xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating the Company is not capable of meeting its liabilities existing at the date of the balance sheet as and when they fall due within period of one year from the balance sheet date. We however, state that this is not an assurance as to the future viability of the Company. We further state that, our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) In respect of ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount, to a Special account before the date of this report and within a period of 30 days from the end of the financial year in compliance with the provision of section 135(6) of the Act.

# Notes to the financial statements

## Note 1 - General Information:

Honeywell Automation India Limited (the 'Company') is engaged primarily in the business of Automation & Control systems on turnkey basis and otherwise. The Company is a public limited company incorporated and domiciled in India and has its registered office at 56,57 Hadapsar Industrial Estate, Pune – 411013, Maharashtra, India. The Company is listed on the Bombay Stock Exchange, Mumbai (BSE) and the National Stock Exchange (NSE).

The financial statements are approved for issue by the Company's Board of Directors on May 17, 2023.

## Note 2 - Significant Accounting Policies:

### A. Statement of Compliance

These financial statements are prepared in accordance with Indian Accounting Standard (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ("the Act") (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued there after.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### Operating cycle for current and non-current classification :

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle, based on the duration of the specified project/contract/product line/service including the defect liability period, wherever applicable and extends up to the realization of receivables (including retention monies) within the agreed credit period normally applicable to this industry.

### B. Basis of Preparation and Presentation

The financial statements have been prepared on a historical cost convention and on an accrual basis, except for the following material items that have been measured at fair value as required by relevant Ind AS:

- i) Derivative financial instruments
- ii) Certain financial assets and financial liabilities measured at fair values (as required by the relevant Ind AS)
- iii) Share based payment transactions and
- iv) Defined benefit and other long term employee benefits

Historical cost is generally based on the fair value of the consideration given in exchange of goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the assets or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and disclosure purpose in these financial statement is determined on such basis, except for share-based transactions that are within scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

For financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly;

Level 3 inputs are unobservable inputs for the asset or liability.

Amounts in the financial statements are presented in Indian Rupees in lakhs and rounded off as permitted by Schedule III to the Companies Act, 2013. Per share data are presented in Indian Rupees to two decimal places.

### C. Property, Plant and Equipment

Property, Plant and Equipment are stated at acquisition cost, net of accumulated depreciation and accumulated impairment losses, if any.

Items of Property, Plant and Equipment that have been retired from active use and are held for disposal are stated at the lower of their net book value and net realisable value and are shown separately in the financial statements. Any expected loss is recognised immediately in the Statement of Profit and Loss.

Losses arising from the retirement of, and gains or losses arising from disposal of Property, Plant and Equipment are recognised in the Statement of Profit and Loss.

Freehold land is not depreciated.

The Company depreciates Property, Plant and Equipment over their estimated useful lives using the straight-line

method. The estimated useful lives of assets are as follows:

<b>Class of Assets</b>	<b>Useful Lives</b>
Buildings	30 years
Plant and Machinery	4 - 10 years
Computers and Networks	3 - 5 years
Vehicles	4 - 5 years
Office Equipment	5 - 6 years
Furniture and Fixture	5 - 10 years

Based on technical evaluation, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Assets installed in leased premises are depreciated over lease period or useful life of assets whichever is lower.

The estimated useful life of the Property, Plant and Equipment are reviewed at the end of each financial year, with the effect of any changes in estimate accounted for on a prospective basis.

#### **D. Intangible Assets and Amortization**

Intangible assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and the amortisation method are reviewed at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Losses arising from the retirement of, gain or losses arising from disposal of an intangible asset are recognised in the Statement of Profit and Loss. The Purchased Software are amortized over a period of 3 years.

The estimated useful life of the intangible assets are reviewed at the end of each financial year, with the effect of any changes in estimate accounted for on a prospective basis.

#### **E. Impairment of Property, Plant and Equipment and Intangible Assets**

Assessment is done at each Balance Sheet date as to whether there is any indication that an asset (property, plant and equipment and intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such

indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

#### **F. Inventories**

Inventories comprise of raw material, work in progress, finished goods, stock in trade and are stated at lower of cost and net realisable value. Cost is determined using the technique of standard cost method, which approximates the actual cost using the Moving Weighted Average basis. The cost of finished goods and work in progress comprises design costs, raw materials, direct labour, other direct costs and related production overheads. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

#### **G. Revenue Recognition**

- i) The Company earns revenue primarily from turnkey projects with respect to automation and related control systems, AMC services and other business solutions. Revenue from construction of plants and systems with performance obligations satisfied over time are recognized using input method. Revenue from such contracts is recognized over time because of the continuous transfer of control to the customer. With control transferring over time, revenue is recognized based on the extent of progress towards completion of the performance obligation. Cost based input method of progress is used because it best depicts the transfer of control to the customer that occurs as costs are incurred. Under the cost based cost method, the extent of progress towards completion is measured based on the proportion of costs incurred to date to the total estimated costs at completion of the performance obligation. Cost estimates on significant contracts are reviewed on a periodic basis, or when circumstances change and warrant a modification to a previous estimate. Cost estimates are largely based on negotiated or estimated purchase contract terms, historical performance trends and other economic projections. Significant factors that influence these estimates include if the desired site is made available on time, inflationary trends, technical and schedule risk, internal and subcontractor performance trends, business volume assumptions, asset utilization

and anticipated labour agreements. Provisions for anticipated losses on long-term contracts are recorded in full when such losses become evident, to the extent required.

- ii) Revenue from contract with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration Company expects to be entitled in exchange for those goods or services. Service sales, principally representing software development are recognized over the contractual period or as services are rendered.
- iii) The terms of a contract or the historical business practice can give rise to variable consideration due to, but not limited to, cash-based incentives, rebates, performance awards, or credits. Variable consideration is estimated at the most likely amount receivable from customers. Estimated amounts are included in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized for such transaction will not occur, or when the uncertainty associated with the variable consideration is resolved. Estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of our anticipated performance and all information (historical, current and forecasted) that is reasonably available.
- iv) A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration excluding any amounts presented as a receivable.
- v) A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

## **H.Foreign Currency Transactions**

- i) Functional currency

The functional currency of the Company is the Indian rupee. These financial statements are presented in Indian rupees (rounded off to Lakhs).

- ii) Initial Recognition

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency

amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.

### iii) Subsequent Recognition

As at the reporting date, non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. All non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

All monetary assets and liabilities in foreign currency are restated at the end of accounting period.

Exchange differences on restatement of all other monetary items are recognised in the Statement of Profit and Loss.

## **I. Employee Benefits**

The Company participates in various employee benefit plans. Post-employment benefits are classified as either defined contribution plans or defined benefit plans:

- i) Superannuation fund:

Contribution towards superannuation fund for certain employees is made to the Life Insurance Corporation, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis.

- ii) Provident Fund:

Provident Fund contributions are made to a Trust administered by the Company. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of the period/ year and any shortfall in the fund size maintained by the Trust set up by the Company is additionally provided for.

- iii) Gratuity:

The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972 (as amended from time to time). The Gratuity Plan provides a lump sum payment to eligible employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each reporting period.

- iv) Compensated Absences:

Accumulated compensated absences, which are expected to be availed or encashed within 12 months

## NOTES TO THE FINANCIAL STATEMENTS

from the end of the year end are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

### v) Termination Benefits:

Termination benefits in the nature of voluntary retirement benefits are recognised in the Statement of Profit and Loss as and when incurred.

### Actuarial gain or losses and remeasurements:

Actuarial gains or losses on defined benefit obligations are recognized in other comprehensive income. Further, the profit or loss does not include an expected return on plan assets. Instead net interest recognized in profit and loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognized as part of re-measurement of net defined liability or asset through other comprehensive income.

Remeasurements comprising actuarial gains or losses and return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are not reclassified to profit and loss in subsequent periods.

## J. Share Based Payments

Certain employees of the Company receive remuneration in the form of equity settled instruments given by the ultimate holding company (Honeywell International Inc.), for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant.

The expense is recognized in the statement of profit and loss with a corresponding increase to the share based payment reserve, as a component of equity. The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants. The stock compensation expense is determined based on the Company's estimate of equity instruments that will eventually vest.

## K. Income Tax

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the period.

### Current tax:-

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the taxation laws prevailing in the respective jurisdictions.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis.

### Deferred tax:-

Deferred tax is recognized using the balance sheet approach. Deferred tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements.

Deferred tax asset are recognized to the extent that it is probable that taxable profit will be available against which such deferred tax assets can be realised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax liabilities are recognized for all taxable temporary differences.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax and where the deferred tax assets and the deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

## L. Provisions and Contingencies

**Provisions:** Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date and are discounted to its present value as appropriate.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

**Contingent Liabilities:** Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more

uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is termed as a contingent liability.

Contingent assets are disclosed where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date. Where the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under such contract, the present obligation under the contract is recognised and measured as a provision.

## **M. Leases**

At the inception of a contract, the Company assesses whether the contract is, or contains, a lease. The assessment is based on:

- (1) whether the contract involves the use of a distinct identified asset,
- (2) whether the Company obtains the right to substantially all the economic benefit from the use of the asset throughout the period, and
- (3) whether the Company has the right to direct the use of the asset.

The Company has hired office premises under non-cancellable operating lease arrangements at stipulated rentals.

Right-of-use assets represent right to use an underlying asset during the reasonably certain lease term, and lease liabilities represent obligation to make lease payments arising from the lease. The lease terms include options to extend or terminate the lease when it is reasonably certain that the Company will exercise that option.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance lease payments.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

The Company primarily uses incremental borrowing rate, which is based on the information available at the lease commencement date, in determining the present value of the lease payments.

A right-of-use asset and corresponding lease liability are not recorded for leases with an initial term of 12 months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes lease payments as operating expense as incurred over the lease term.

The Company has also elected practical expedient available within the standard:

- not to separate non-lease components from lease components, and instead account for each lease component and any associated non-lease components as a single lease component.
- using hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

## **N. Financial Instruments**

Financial assets and financial liabilities are recognised when a company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in Statement of Profit and Loss.

## **O. Financial Assets**

All purchases or sales of financial assets are recognised and derecognised on a trade date basis including delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

### i. Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

## NOTES TO THE FINANCIAL STATEMENTS

- a) the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- b) the contractual terms of the instrument give rise on specified date to cash flows that are solely payments of principal and interest on the principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (FVTOCI) (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- a) the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- b) the contractual terms of the instrument give rise on specified date to cash flows that are solely payments of principal and interest on the principal and interest on the principal amount outstanding.

Interest income is recognised in profit and loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit and loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to the Statement of Profit and Loss.

All other financial assets are subsequently measured at fair value.

### ii. Effective interest method

The effective interest method is a method of calculating the amortised cost of debt instrument and of allocating interest over the relevant period. The effective interest rate is the rate that discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income recognised on an effective interest basis for debt instruments other than those financial assets classified as FVTPL. Interest income is recognised in profit and loss and is included in "Other income".

### iii. Financial assets at fair value through profit or loss (FVTPL):

Investments in equity instruments are classified as FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investment in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria are measured at FVTPL. In addition, debt instruments that meet amortised cost criteria or FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduced a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognizing the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporate any dividend or interest earned on the financial asset and is included in 'Other income'. Dividend on financial asset at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that economic benefits associated with dividend will flow to the entity, the dividend does not represent recovery of part of cost of the investment and the amount of dividend can be measured reliably.

### iv. Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instrument at FVTOCI, trade receivables, other contractual right to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the company expects to receive, discounted at the original effective interest rate (or credit-Adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the company measures the loss allowance for that financial instrument at an amount equal to 12 month expected credit losses. 12 month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the company again measures the loss allowance based on 12 month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default accruing over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that results from transactions that are within the scope of Ind AS 115, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix based on judgement considering past experience.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

#### v. Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flow from the asset expired or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred assets the Company recognises its retained interest in the asset and then associated liability for amounts it may have to pay.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial assets.

On derecognition of a financial asset other than in its entirety, the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of relative fair values of those part on the date of the transfer. The difference between carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit and loss if such gain or loss would have otherwise been recognised in profit and loss on disposal of that financial asset. A cumulative gain or loss that has been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair value of those parts.

#### vi. Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit and loss.

Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.

For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured amortised cost. Thus,

## NOTES TO THE FINANCIAL STATEMENTS

the exchange difference on the amortised cost are recognised in profit and loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

### vii. Derivative financial instruments and hedge accounting

In the ordinary course of business, the Company uses certain derivative financial instruments to reduce business risks which arise from its exposure to foreign exchange fluctuations. The instruments are confined principally to foreign exchange forward contracts. The instruments are employed as hedges of transactions included in the financial statements or for highly probable forecast transactions/firm contractual commitments.

Derivatives are initially accounted for and measured at fair value from the date the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period

The Company adopts hedge accounting for forward contracts. At the inception of each hedge, there is a formal, documented designation of the hedging relationship. This documentation includes, inter alia, items such as identification of the hedged item or transaction and the nature of the risk being hedged. At inception each hedge is expected to be highly effective in achieving an offset of changes in fair value or cash flows attributable to the hedged risk. The effectiveness of hedge instruments to reduce the risk associated with the exposure being hedged is assessed and measured at the inception and on an ongoing basis. The ineffective portion of designated hedges is recognised immediately in the statement of profit and loss.

When hedge accounting is applied:

- a. for fair value hedges of recognised assets and liabilities, changes in fair value of the hedged assets and liabilities attributable to the risk being hedged, are recognised in the statement of profit and loss and compensate for the effective portion of symmetrical changes in the fair value of the derivatives.
- b. for cash flow hedges, the effective portion of the change in the fair value of the derivative is recognised directly in equity and the ineffective portion is taken to the statement of profit and loss. If the cash flow hedge of a firm commitment or forecasted transaction results in the recognition of a nonfinancial asset or liability, then, at the time the asset or liability is recognised, the associated gains or losses on the derivative that had previously been recognised in equity are included in the initial measurement of the asset or liability. For hedges that do not result in the recognition of a non-financial asset or a liability, amounts deferred in equity are recognised in the statement of profit and

loss in the same period in which the hedged item affects the statement of profit and loss.

In cases where hedge accounting is not applied, changes in the fair value of derivatives are recognised in the statement of profit and loss as and when they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. At that time, any cumulative gain or loss on the hedging instrument recognised in equity is retained in equity until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in equity is transferred to the statement of profit and loss for the period.

## P. Financial Liabilities and Equity Instruments

### i. Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of financial liability and equity instrument.

### ii. Equity instruments

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue cost.

### iii. Financial liabilities

All financial liabilities are subsequently measured at amortised cost using effective interest method of FVTPL.

#### iii. a) Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or designated as at FVTPL.

Financial liability at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss. The net gain or loss recognised in profit and loss incorporates any interest paid on the financial liability and is included in 'Other Income'.

#### b) Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held for trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amount of financial liabilities that are subsequently measured at amortised cost

are determined based on the effective interest method. Interest expenses that is not capitalised as part of cost of an asset is included in 'finance cost'.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

c) Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instrument and are recognised in other income.

The fair value of financial liabilities denominated in foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liability that are measured at FVTPL, the foreign exchange component forms part of fair value gains or losses and is recognised in the Statement of Profit and Loss.

iv) Derecognition of financial liabilities

The Company derecognises financial liability when, and only when, the Company obligations are discharged, cancelled and have expired. An exchange between with a lender of debt instrument is substantially different term is accounted for as and extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of a term of existing financial liability is accounted for as and extinguishment of the original financial liability and recognition of new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit and loss.

**Q. New Accounting Standards, Amendments to Existing Standards, Annual Improvements, Interpretations, etc. applicable to the Company effective subsequent to March 31, 2023**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

Ind AS 12 – Income Taxes

This amendment has narrowed the scope of the initial recognition exemptions so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The Company is evaluating the impact, if any, in its financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors - This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The Company has evaluated the amendment and there is no impact on its financial statements.

**Note 3 -Critical Judgements, estimations and assumptions in applying Accounting Policies**

In the application of the Company's accounting policies, which are described in note 2, the directors of the company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

1. The preparation of financial statements involves estimates and assumptions that affect the reported amount of assets, liabilities, disclosure of contingent liabilities at the date of financial statements and the reported amount of revenues and expenses for the reporting period. Specifically, the Company estimates the probability of collection of accounts receivable by analysing historical payment patterns, customer

## NOTES TO THE FINANCIAL STATEMENTS

- concentrations, customer credit-worthiness and current economic trends. If the financial condition of a customer deteriorates, additional allowances may be required.
2. The Company uses the percentage-of-completion method in accounting for its contract revenue. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.
3. Provision for warranty is considered based on the rolling average warranty expense incurred in the preceding 12 months , the warranty period for which ranges from 12 months to 24 months as per provisions of the contracts.
4. In case of Property, Plant and Equipment and Intangible assets, the charge in respect of periodic depreciation/amortisation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.
5. Ind AS 116 requires lessee to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the company has concluded that no material changes are required to lease period relating to the existing lease contracts. Refer note no 2 (M).

<b>Balance at the end of the year</b>	<b>4,440</b>	<b>3,635</b>

## NOTES TO THE FINANCIAL STATEMENTS

The concentration of credit risk is limited due to the fact that the customer base is large.

The Company determines the allowance for expected credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company has specifically evaluated the potential impact with respect to customers which could have an immediate impact and the rest which could have an impact with expected delays. Basis this assessment, the allowance for doubtful trade receivables as at March 31, 2023 is considered adequate.

The Company is not having any trade receivables representing more than 5% of total trade receivables.

### B. Contract balances

Progress on satisfying performance obligations under contracts with customers and the related billings and cash collections are recorded in accounts receivable and the unbilled receivables in Other Financial Assets. The customer advances are recorded as Other Current Liabilities. Unbilled receivables (Contract Assets) arise when the timing of cash collected from customers differs from the timing of revenue recognition, such as when contract provisions require specific milestones to be met before a customer can be billed. Those assets are recognized when the revenue associated with the contract is recognized prior to billing and derecognized when billed in accordance with the terms of the contract. Contract liabilities are recorded when a milestone is met triggering the contractual right to bill but revenue recognised over time is not recognized.

When contracts are modified to account for changes in contract specifications and requirements, the Company considers whether the modification either creates new or changes the existing enforceable rights and obligations. Contract modifications that are for goods or services that are not distinct from the existing contract, due to the significant integration with the original good or service provided, are accounted for as if they were part of that existing contract. The effect of a contract modification on the transaction price and the measure of progress for the performance obligation to which it relates, is recognized as an adjustment to revenue (either as an increase in or a reduction of revenue) on a cumulative catch-up basis. When the modifications include additional performance obligations that are distinct, they are accounted for as a new contract and performance obligation, which are recognized prospectively.

## NOTES TO THE FINANCIAL STATEMENTS

	₹ in lakhs	
	<b>Year ended 31st March 2023</b>	<b>Year ended 31st March 2022</b>
(a) Opening balances		
Contract receivables (net of expected credit loss allowance)	67,821	92,522
Contract assets (net of expected credit loss allowance)	69,713	56,636
Contract liabilities	7,885	4,901
Closing balances		
Contract receivables (net of expected credit loss allowance)	94,619	67,821
Contract assets (net of expected credit loss allowance)	49,383	69,713
Contract liabilities	9,158	7,885
(b) Revenue recognised from opening balance of contract liability	7,110	4,411
(c) Revenue recognised in the reporting year from performance obligations satisfied (or partially satisfied) in previous years	-	-

The net change was primarily driven by the increase in recognition of revenue as performance obligations were satisfied exceeding milestone billings.

### C. Performance obligation

A performance obligation is a promise in a contract to transfer a distinct good or service to the customer. A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. When contracts with customers require highly complex integration or manufacturing services that are not separately identifiable from other promises in the contracts and, therefore, not distinct, then the entire contract is accounted for as a single performance obligation. Performance obligations are satisfied as of a point in time or over time. Performance obligations are supported by contracts with customers, providing a framework for the nature of the distinct goods, services or bundle of goods and services. The timing of satisfying the performance obligation is typically indicated by the terms of the contract.

Typical payment terms of fixed-price over time contracts include progress payments based on specified events or milestones, or based on project progress. For some contracts the Company may be entitled to receive an advance payment. The Company provides standard warranty on its products and records obligation on the same based on past trend.

### D. Transaction price

	₹ in lakhs	
	<b>Year ended 31st March 2023</b>	<b>Year ended 31st March 2022</b>
Amount of transaction price allocated to performance obligations that are unsatisfied (or partially unsatisfied)	98,260	85,537
<b>Reconciliation of revenue</b>		
Contracted Price	3,43,581	2,93,829
Liquidated Damages	(397)	(88)
Revenue as per Statement of Profit & Loss	3,43,184	2,93,741

The Company has applied the practical expedient for certain revenue streams to exclude the value of remaining performance obligations for contracts with an original expected term of one year or less. Performance obligations recognized as at the year end will be satisfied over the course of future periods. The disclosure of the timing for satisfying the performance obligation is based on the requirements of contracts with customers. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts and periodic revalidations.

### Remuneration to Key Management Personnel

(₹ in lakhs)

	Year ended 31st March 2023	Year ended 31st March 2022
Short term benefits	604	449
Post-employment benefits*	34	29
Other long-term benefits	19	8
Share-based payments	166	136

\* The Provision for post-employment benefit are determined by way of Actuarial Valuation for a Company as a whole.

The Company generates a large percentage of its sales and profits from its business with the Honeywell group (Honeywell), its major shareholder. Sales to Honeywell group accounted for approximately 40% and 32% of our total net sales for the year ended March 31, 2023 and year ended March 31, 2022 respectively. The Company's ability to maintain or grow its business with Honeywell depends upon a number of performance factors. However, the Company cannot be assured that its level of sales and profits associated with its relationship with Honeywell will continue. Honeywell-specific business considerations (independent of its shareholding in the Company), including changes in Honeywell's strategies regarding utilization of alternate opportunities available to it to source products and services currently provided by the Company (including from alternate sources which Honeywell may acquire or develop within its own group), may also reduce the level and/or mix of Honeywell's business with the Company.

### Note 33 - Share Based Payments

#### Employee share option plan of the company

Honeywell International Inc. (HII), the ultimate holding company, may grant stock options and restricted stock awards to certain employees under its stock incentive plan.

**Stock Options**—The exercise price, term and other conditions applicable to each option granted under the stock plans are generally determined by the Management Development and Compensation Committee of the Board of Honeywell International Inc. The exercise price of stock options is set on the grant date and may not be less than the fair market value per share of the stock on that date. The fair value is recognized as an expense over the employee's requisite service period (generally the vesting period of the award). Options generally vest over a four-year period and expire after ten years.

**Restricted Stock Units**—Restricted stock unit (RSU) awards entitle the holder to receive one share of common stock for each unit when the units vest. RSUs are issued to certain employees as compensation at fair market value at the date of grant. RSUs typically become fully vested over periods ranging from three to seven years and are payable in Honeywell common stock upon vesting.

#### Fair value of share options granted in the year

The fair value of each stock option award is estimated on the date of grant using the Black-Scholes option-pricing model. Expected volatility is based on implied volatilities from traded options on common stock of HII and historical volatility of common stock of HII. Monte Carlo simulation model is used to derive an expected term which represents an estimate of the time options are expected to remain outstanding. Such model uses historical data to estimate option exercise activity and post-vest termination behaviour. The risk-free rate for periods within the contractual life of the option is based on the U.S. treasury yield curve in effect at the time of grant.

## Sensitivity Analysis

Sensitivity analysis indicates the influence of a reasonable change in certain significant assumptions on the outcome of the Present value of obligation (PVO) and aids in understanding the uncertainty of reported amounts.

- Sensitivity analysis for each significant actuarial assumptions viz. Discount rate and Salary escalation rate as of the end of the reporting period, showing how the defined benefit obligation would have been affected by changes is called out in the table above.
- The assumptions used in preparing the sensitivity analysis is  
Discount rate at +100bps and – 100 bps  
Salary escalation rate at +100 bps and -100 bps
- The method used to calculate the liability in these scenarios is by keeping all the other parameters and the data same as in the base liability calculation except for the parameters to be stressed.
- There is no change in the method from the previous period and the points/percentage by which the assumptions are stressed are same as that in the previous year.

## Impact of change in discount rate when base assumption is decreased/increased by 100 basis point

₹ in lakhs)			
Discount rate	March 31, 2023 Present value of Obligation	March 31, 2022 Present value of Obligation	
a) Discount rate -100 basis point	10,941	9,852	
b) Discount rate +100 basis point	9,029	8,052	

## NOTES TO THE FINANCIAL STATEMENTS

### **Impact of change in salary increase rate when base assumption is decreased/increased by 100 basis point**

b) Salary escalation rate +100 basis point	10,961	9,874

In presenting the above sensitivity analysis, the present value of the defined benefit obligations has been calculated using Projected Unit Credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the Balance sheet.

Sr. No	Particulars	31st March 2023	31st March 2022
1	Insurer managed funds	100%	100%

Gratuity fund contributions are made to LIC.

The overall expected rate of return on assets is based on the expectation of the average long term rate of return expected on investments of the Fund during the estimated term of the obligations.

The actual return on plan assets is as follows

(₹ in lakhs)

Sr. No	Particulars	For the year ended	
		31st March 2023	31st March 2022
a	Actual return on plan assets	500	333

### **A note on other risks**

**Investment risk-** The funds are invested with an external insurer (LIC of India). The insurer manages the Gratuity Fund and provides quarterly interest returns. Considering LIC is a state insurer with a sovereign guarantee and no history of defaults the investment risk is not significant.

**Interest Risk –** The Gratuity fund managed by an external insurer (LIC of India) is in the form of cash accumulation scheme with interest rates declared annually – A significant fall in interest (discount) rates may not be offset by an increase in value of Gratuity Fund, hence may pose an interest rate risk.

**Longevity Risk –** Since Gratuity is paid at retirement in form of lump sum and also during service at the time of termination to vested members, longevity risk is not applicable since maximum duration for benefit is till retirement age

**Salary Risk-** The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

### **Expected future cash flow of defined benefit obligation:**

#### Foreign currency exchange rate risk:

The fluctuation in foreign currency exchange rates may have potential impact on the income statement and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the Company. Considering the countries and economic environment in which the Company operates, its operation are subject to risks arising from fluctuations in exchange rates in those countries. The risk primarily relate to U.S. Dollars against the functional currency of Honeywell Automation India Limited.

The Company, as per its Hedging policy, uses forward contracts to hedge foreign exchange exposure. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. It hedges a part of these risks by using forward contracts in accordance with its risk management policies.

The Company uses forward exchange contracts to hedge its exposure in foreign currency. The information on derivative instruments is as follows :
